

AAE 375: Trading in Futures Market

Spring 2024

1 credit

Agricultural & Applied Economics
College of Agricultural & Life Science

What?

- Students will develop analysis skills for trading futures.
- Students will trade using the TT® (Trading Technology) platform.
- Students will connect with trade and risk management professionals from different sectors.
- Students can optionally participate in the CME Trading Challenge.

Why?

- Apply economics knowledge and skills, and intuition in real-world trading.
- Gain hands-on experience in futures trading and risk management.
- Enhance your resume and gain a job market edge.
- Develop teamwork and communication skills.
- Network with local and national brokerage firms and business risk management for internship and full-time positions.

When & Where?

- Thursday 1:00-2:00 pm
- Taylor Hall 113

Who?

- Students of all majors, from freshmen to seniors, are welcome!
